

Please read and sign at the bottom of the page (return with your booking form)

1. Hours included in your Wedding Package

Once filming has begun, coverage will be for the number of hours specified in the wedding video package you have chosen. OR when sufficient footage has been shot on the day, and it is considered by the cameraman that further coverage is unlikely to be utilised due to the available space on the final DVDs/Blu-ray discs.

Filming will normally commence 1 hour before the wedding ceremony time. Please factor this in when calculating the finish time.

Videoing your Bridal Preparation will be conducted by prior arrangement with you and is only included as part of the 'Premium' and 'Ultimate' Packages. Please allow a minimum of one hour to video the Bridal Preparation and travel time between locations.

Additional filming beyond the agreed coverage hours included in your chosen package will only be undertaken with your permission (by prior-arrangement or verbally on the day), on the understanding that an additional fee of £30 per hour will be chargeable.

2. Payment Schedule

40% of the package total is due one month before the wedding date, or payable on the wedding day by prior arrangement. Failure to pay will be considered as a cancellation by you. The final balance of 40% of the package total is due on delivery of the final DVDs/ Blu-ray Discs.

3. Deposits and Cancellations

Booking Fees (20% of total package price) made at the time of booking are not refundable in the event your cancellation. Cancellations made with less than two months remaining to the wedding date are liable to a cancellation fee of 20% of the outstanding balance. By signing the Booking Form overleaf you are agreeing to the conditions.

4. Dining

The videographer shall be provided with a hot meal (preferably not seated with guests) and allowed time for dining.

5. Liability in the event of an equipment failure

Purity Studios will take the utmost care regarding equipment function & recording media. In the unlikely event of equipment failure or media failure, resulting in Purity Studios failing to comply with the terms of this agreement, Purity Studios will only be liable for funds received from you up to that point in time.

6. Copyright

Purity Studios reserves the rights to the video/DVD production and may use/or duplicate video/DVDs for demonstration, publication, or other promotional purposes. Original media and DVD/s copyright remain the exclusive property of Purity Studios. If you do not wish your wedding video to be used for demonstration, publication, or other promotional purposes, please let us know at the time of booking.

7. Unforeseen Additional Expenses

Additional expenses such as postage, car parking at city centre locations etc. will be charged in addition to the chosen package price.

8. Music for your DVDs/Blu-ray Discs

Due to the toughening of copyright laws on music, you are responsible for supplying the music tracks for use as backing tracks on your DVD. You can supply the music on a CD, DVD, or email the tracks to the studio as mp3s. It is assumed that you have legally purchased all tracks supplied to Purity Studios for inclusion on your DVD. Music is to be supplied by you one month before the wedding date.

9. Production Schedule

Production of your finished DVDs/Blu-ray Discs is undertaken on the following basis. A waiting list is compiled for all pending projects. You are added to the list when:

1. The music has been supplied by you, (if this has not been supplied before the wedding).
2. In a chronological order based on the date of your wedding.

Production of your DVD / Blu-ray Discs will only start when all assets to be included in the production (e.g. music, bridal party details, optional photos etc.) are with Purity Studios.

10. Playback of DVDs and Blu-ray Discs

All DVD discs are tested before leaving the studio. Purity Studios is not responsible for any playback issues on old DVD players (which may have a dirty laser etc.) or very low budget DVD players.

All Blu-ray Discs are tested on a Playstation 3, on which 100% compatibility is guaranteed. Purity Studios is not responsible for any issues with playback of BD-R discs on 'stand alone' Blu-ray players (e.g. your player may require a firmware upgrade in order to play BD-R Discs). If you have any doubts about compatibility of any particular Blu-ray player, please ask before booking.
